

Why ID?

Times are changing, and the impact of Social Media has changed with it. Beyond the rise in targeted trolling and misinformation campaigns, we all want to feel comfortable in a safe space that allows us to spread thoughts and ideas. At Al2gether we think by verifying users we take the best steps towards creating that safe space. With your Homeview account you can take live pictures or videos and share with others, while also viewing content in your interests from users with Special Accounts. To engage in Worldwide, where you can upload more content, or create your own Special User Account, we want an air of accountability. Moreover, we believe asking for ID will help weed out those problematic users/bots/trolls who use the complete anonymity of platforms to abuse other users. We have the confidence that one day we can compete with the largest platforms, and plan to grow and develop our platform as we do, and we want to do it with an environment of authentic users sharing their own thoughts and ideas with other authentic users. Nothing goes perfectly, but this is our plan to achieve our goal. We hope you will join us.

Facts-

- Your ID is not accessible by any user, and no information from it is attached to your Username or account profile.
- We accept any picture ID that shows your Full Name and Birthdate. (This mean's state IDs, College IDs, Passports, even work IDs, or any reasonable Photo Id that shows Full Name and birthdate)
- You can cover your Address on your ID when you submit.
- We do not share copies of your ID with any 3rd party.
- We do not share specific information from your ID with any 3rd party.
- Any meta data we collect for advertising will only be labeled by gender and age.
- If you deactivate your account, your ID information will be removed within 30days. (The only exception being made for those who may have their account suspended or banned for periods over 30days.)
